MARCH, 2007

BRING IT ON... **LANSING & GRAND RAPIDS**

MORE NEW BAIT? YES WAY!

This is a year for new baits like no other. I've established success with tournament winning baits like St. Clair Goby, Great Lakes Craw, Firetiger, Canadian Mist and green pumpkin with chartreuse and purple. That's a solid line-up but it wasn't good enough. That's why I designed baits with different flakes and different tones and introduced them at the Ultimate Fishing Show at Novi in January. Below are the new designs that really moved at the last show.

Sand Craw
Brown Craw
Green Craw
Golden Goby
Hybrid Craw
5" X-worm DM Tinsel

The big surprise was that a factory error, **Hybrid Craw**, stole the show. We were packaging these at the show continuously. But that's not the real news.

"...we've got new baits styles with two of the most steady and effective colors in the inventory."

Because of some hard work by my suppliers, *Reaper Products* and *Snack Daddy Lures*, the **Xtreme Bass Tackle** line-up is now complete. The following baits are being rolled out at the Lansing Show:

Tube—Erie Goby
5" X-worm—Canadian Mist
5" X-worm—Green pumpkin chart/pur

DROP SHOT BAIT
2 1/2" tube - Green pumpkin chart/pur
2 1/2" tube - Drop shot shiner
Goby bait—Canadian Mist
Goby bait—GP chart/pur

As if the new tone and flake colors weren't enough, now we've got new baits styles with two of the most steady and effective colors in the inventory. All of this adds up to us having one of the best plastics bait line-ups to meet the needs of any situation. Muted tones, bright tones, stick baits, tubes, skirted twin tails, goby baits and drop shot tubes.

What's the difference between my baits and all the others? If a bait doesn't perform up to tournament quality standards, **I fire it!** No big name promotions, no hype to get a percentage of market share. Just a lot of hard work put behind each color, each style and then research done through the *Combat Fishing Weekly Newsletter* to back it up.

Wells has been sponsored by *Xtreme Bass Tackle* and *Combat Fishing* since he was 11 yrs. old. He has already been on the cover of **Jr. Bassmaster magazine** and has major tournament victories to his credit. I am looking forward to having hem with us on Saturday at Grand Rapids (5:30pm NBAA Stage) to talk about *high percentage baits*.
