<http://stores.ebay.com/Xtreme-Bass-Tackle>

In over eight years of bass research on Lake St. Clair (Michigan) I've been able to put together a family of baits to meet all fishing conditions. The newest members to the family are the premium laminates. St. Clair Goby was introduced in 2003 and the catch rates were phenomenal. Firetiger and Great Lakes Craw were developed and became legendary on both St. Clair and Lake Erie.

The new additions, **Sand Craw**, **Brown Craw**, **Green Craw**, **Hybrid Craw** and **Golden Goby** fill out some gaps in flake and tone. No matter where you fish, grab an Xtreme Bass Tackle bait when you want to optimize your success.
